**i Performance of the Group**
**Current Year Quarter End versus Previous Year 3rd Quarter**

For the quarter ended 30 September 2025, the Group recorded a revenue of RM2.48million, which represents an increased of RM1.08million as compared to a revenue of RM1.40million for the 3rd Quarter in the preceding year. This is mainly due to more attractive pricing package introduce by the Group and leads to higher market demand on the cell therapies and immunotherapies segment as compared to the previous year same quarter results. Besides, the clearance sales of skin care products has contributed to the increased in sales for this quarter. The Group will continue strengthening its cell therapies and expand its immunotherapy therapies, organic growth of its genetic screening business and business development activities including opening new territories and developing new products suitable for the fast-moving consumer good (FMCG) market. The Group's effort towards building its biopharmaceutical business is in support of future growth and sustainability.

For the current quarter, the Group recorded a profit before tax of RM0.31million as compared to a loss before tax of RM1.01million in the same quarter of the preceding year. The improvement was mainly attributable to higher revenue and lower administrative expenses, particularly staff costs and consultancy fees.

**Current Year-to-Date versus Previous Year-to-Date**

The Group recorded a revenue of RM5.63million, which represents a slightly increased of RM1.15million as compared to a revenue of RM4.48million in the previous year-to-date. The increased was mainly due to the attractive pricing package introduce by the Group and resulted to higher market demand and clearance sales of skin care products.

The Group recorded a reduced loss before tax of RM0.97 million compared to loss before tax of RM3.91 million in the corresponding period of the preceding year, primarily attributable to increased revenue and cost savings. This demonstrates the effectiveness of the cost-saving initiatives implemented by the Group.

**ii Comparison with Preceding Quarter's Results**

The comparison of this quarter's results with the preceding quarter is set out below.

	<b>Current Quarter</b>	<b>Preceding Quarter</b>	<b>Variance</b>

	(RM'000)	(RM'000)	(RM'000)
Revenue	2,484	1,796	688
Profit/(Loss) before tax	310	(448)	758

A slightly higher revenue of RM2.48 million was recorded in the current period as compared to the preceding quarter's revenue of RM1.80 million, mainly due to higher demand from immunotherapy and cell therapies segments.

The Group posted a profit before tax of RM0.31 million as compared to a loss before tax of 0.45 million in the preceding quarter. This is mainly due to the higher revenue and lower administrative expenses incurred. This demonstrates the effectiveness of the cost-saving initiatives implemented by the Group.
