## **15. Review of Performance**

### **Current Financial Quarter as compared with Previous Year's Corresponding Quarter**

The Group recorded a total revenue of RM17.929 million for the quarter ended 30 April 2025 represented an decrease of 13.65% compared with RM20.762 million in the previous year's corresponding quarter. The Group registered a profit before tax of RM2.879 million as compared with profit before tax of RM3.365 million in the previous year's corresponding quarter. The performance movement is further explained below:

#### **Investment Holdings Segment**

The investment holding segment recorded revenue of RM0.060 million for the quarter ended 30 April 2025, consistent with the previous year's corresponding quarter. The income generated by Investment holding segment during this quarter mainly consists of management fees and investment income.

This segment registered a loss before tax of RM0.214 million, compared to a loss before tax of RM0.418 million in the previous corresponding quarter mainly due to the corporate exercises' expenses.

#### **Foods Segment**

The foods segment recorded revenue of RM9.717 million for the quarter ended 30 April 2025 compared to RM13.167 million in the corresponding quarter of the previous year. The decline was mainly due to a reduction in sales volume during this quarter.

Despite the decrease in revenue, the food segment registered a loss before tax of RM0.566 million slightly higher as compared with loss before tax of RM0.198 million in the previous year's corresponding quarter. The increase in loss was primarily attributable to the drop in revenue as well as higher unrealised loss on investment recognised during this quarter.

#### **Fish Farming Segment**

The fish farming segment recorded revenue of RM1.535 million for the three months' quarter ended 30 April 2025 as compared with RM1.308 million in the previous year's corresponding quarter. Revenue increased approximately 17.35% mainly due to the increase in sales volume of tropical fishes during the current quarter.

The fish farming segment registered a loss before tax of RM0.813 million as compared with profit before tax of RM0.391 million in the previous year's corresponding quarter. This was mainly due to the decrease in fair value of non-current biological assets during the current quarter.

#### **Merchandise Segment**

The merchandise segment recorded revenue of RM3.667 million for the three months' quarter ended 30 April 2025 represented increase of 2.29% as compared with RM3.585 million in the previous year's corresponding quarter. This was mainly due to increase in sales volume of fish food.
