14 ANALYSIS OF PERFORMANCE (continued)

- (a) Performance of the current quarter (First Quarter FY26) against the corresponding quarter (First Quarter FY25) (continued):

Consolidated Performance

Revenue

Revenue for the current quarter of RM703.1m declined by RM69.4m or 9.0% compared to the corresponding quarter of RM772.5m. This decrease was primarily driven by reduction in subscription revenue and advertising revenue.

EBITDA margin

EBITDA margin declined by 4.2% compared to the corresponding quarter, primarily due to higher content costs, license, copyright and royalty fees, staff related costs, impairment of receivables and professional and consultancy fees, offset by decrease in cost of set-top boxes, as a percentage of revenue.

Net Profit

Net profit of RM13.5m at current quarter decreased by RM3.5m or 20.6% compared to the corresponding quarter. The decrease was due to lower EBITDA, as explained above, offset by lower net financing costs driven by favourable unrealised forex arising from unhedged lease liabilities, lower amortisation of intangible assets and tax expense.

Television

Revenue for the current quarter of RM670.0m was lower by RM57.1m or 7.9% against the corresponding quarter of RM727.1m, mainly arising from the decrease in subscription revenue and advertising revenue.

Television EBITDA decreased by RM39.6m or 21.1% against the corresponding quarter. This is due to decrease in revenue, as mentioned above, higher license, copyright and royalty fees and impairment of receivables, offset by decrease in cost of set-top boxes, content costs and broadband costs.

Radio

Radio's revenue for the current quarter was lower by RM12.4m or 27.3% as compared to the corresponding quarter due to soft consumer sentiments leading to lower advertising spend.

Due to the decline in revenue, EBITDA was lower by RM11.9m or 51.5%.

Consolidated Performance

Revenue

Net Profit

Net profit of RM13.5m for the current quarter increased by RM2.5m or 22.7% compared to the preceding quarter. The increase was due to lower net financing costs driven by favourable unrealised forex arising from unhedged lease liabilities, offset by lower EBITDA and higher tax expense.

Television

- (c) Balance sheet review

As at 30 April 2025, the Group had total assets of RM5,384.2m against RM5,483.1m as at 31 January 2025, a decrease of RM98.9m or 1.8%.

The Group's total liabilities decreased by RM110.0m or 2.6% to RM4,099.2m compared to RM4,209.2m as of 31 January 2025. The reduction in total liabilities was mainly due to lower borrowings by RM118.0m and payables by RM44.0m, offset by higher tax liabilities by RM34.2m and derivative financial instruments by RM12.2m. The decrease in borrowings resulted from lower lease liabilities due to favourable unrealised forex and repayment of lease liabilities and term loans during the period.

15 PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 JANUARY 2026

Our transformation journey sees Team Astro pushing aggressively to be Malaysia's No.1 Entertainment and Streaming Destination. Investments continue to be firmly focused on long-term and sustainable growth by:

- elevating local content, which is Astro's clear competitive advantage, with high quality production and fresh storytelling via Astro Originals, signatures and movies;
- creating more value for customers by increasing the volume and diversity of content in lower tiers and reducing entry pricing for Astro and sooka products, with the intent to grow our base;
- increasing uptake of our adjacent businesses; sooka, Astro Fibre, Enterprise, Addressable Advertising and Studios, targeting both current and new market segments with increased value and flexibility; and
- transforming legacy cost structures to support the above.

Customers now spend 82% of their time on Astro watching local content, up 3 percentage points QoQ. We produce 10,000 hours of new content annually to satisfy this demand, ranging from well-known signatures and dramas to thought-provoking Astro Originals, animation and movies. We are refining the cross-platform monetisation of our content IPs — across cinemas, on our video and digital platforms, via licensing and advertising deals, and to drive on-ground experiences.

Customers now have 16 global and regional streaming and lifestyle apps to choose from with the integration of Amazon Prime Video and Sun NXT onto our flagship U-Boxes. These are also included in our Astro One TV packs, providing compelling content value, high convenience and strong online safety. The intent is to attract new customers and support a positive advertising trajectory over the long-term.

Content piracy remains our biggest threat, and we continue to push hard in the fight against piracy. Across Malaysia, courts have recently ruled in our favour with landmark decisions in the last twelve months, awarding Astro statutory damages and imposing tougher penalties on illegal streaming device (ISD) sellers and errant F&B outlets who illegally stream our content. We will continue to lobby for further regulatory reform and enforcement activity, not just to protect Astro, but to safeguard the future of the Malaysian creative industry.

Given the challenging environment, the Group continues to maintain a cautious outlook, carefully monitoring business conditions and ensuring effective cost discipline as consumers and businesses digest the impact of internal reforms and external uncertainties.

The Inland Revenue Board of Malaysia (“IRB”) had on 9 July 2024 served Notices of Additional Assessment (“Notices”) on the wholly owned subsidiaries of AMH namely, Astro Shaw Sdn. Bhd. (“Shaw”) and MEASAT Broadcast Network Systems Sdn. Bhd. (“MBNS”) for years of assessment 2019 to 2023 amounting to RM22,011,627 and RM712,865,984 (including penalties), respectively. The Notices were raised pursuant to the disallowance of production costs incurred during the said years of assessment by the IRB.

IRB has since accepted the additional justifications and documentation presented by Shaw and MBNS and each of Shaw and MBNS has agreed with the IRB on the revised assessment of all claims under the said Notices. Under the revised assessments, no penalties will be imposed and both Shaw and MBNS will claim capital allowance on the cost of production while taking a disallowance on the amortisation charge. This allows both Shaw and MBNS to fully claim their cost of production which results in unabsorbed capital allowances that would be carried forward to offset against future income. Following this change in treatment, Shaw and MBNS have respectively accepted and signed the Settlement Agreement on 24 April 2025 with IRB. As a result of this, with effect from 24 April 2025, the Group has recognised additional tax liabilities of RM114,948,586.72 (comprising RM4,040,692.56 for Shaw and RM110,907,894.16 for MBNS) for the impacted years and correspondingly recognised deferred tax assets from the additional unabsorbed capital allowances on the costs of production.

The Group’s effective tax rate for the current financial quarter and period ended 30 April 2025 is higher than the statutory tax rate of 24% mainly due to under-provision of taxes in prior year, offset by recognition of deferred tax assets arising from the tax settlement mentioned above.

The Group’s effective tax rate for the corresponding quarter and financial period ended 30 April 2024 is higher than the statutory tax rate of 24% due to unrecognised deferred tax assets arising from tax losses.
